

A **GUNNEBO**® BRAND

Minimax

IN INDIA SINCE 1903

Foam Based Water Mist (Stored Pressure Type) Fire Extinguisher

These extinguishers are suitable for Multi Risk Environment where safety, cleanliness and environmental concerns are vital. Water Mist is not new and has been around for some time however Minimax Foam Based Water Mist is developed by using new technology that allows us to offer these extinguishers at relatively low pressure (15 Bar) which has not been possible before.

Water Mist fire extinguishers are the solution where environmental concerns continue to increase and regulation regarding the disposal of products that cause environmental damage continues to sharpen.

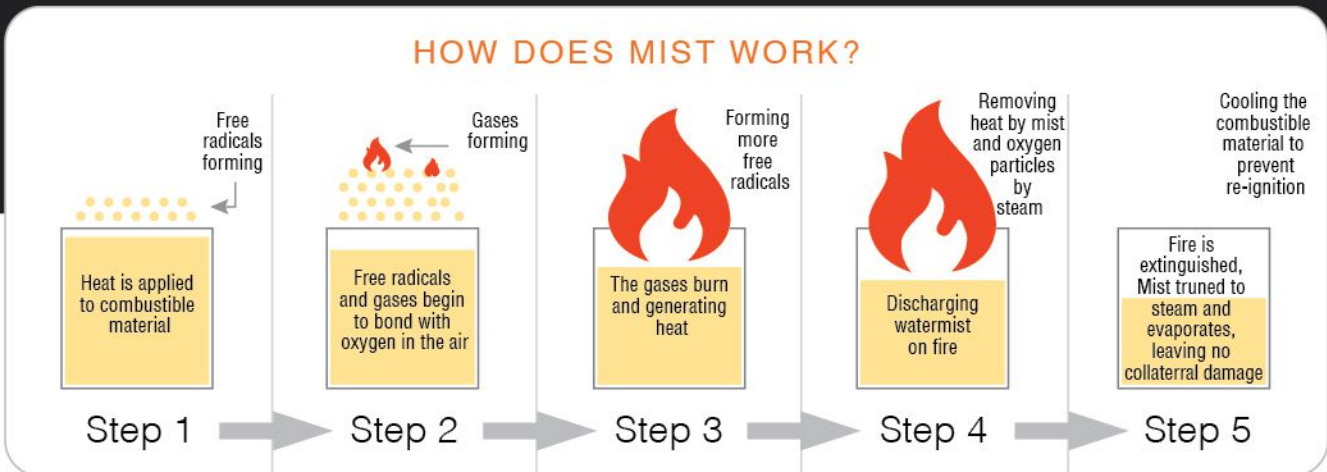

IS 15683

Minimax

Foam Based Water Mist (Stored Pressure Type) Fire Extinguisher

HOW DOES MIST WORK?

SPECIFICATION

- Capacity 9 Ltr
- Extinguishing Medium Water + Foam
- Propellant Nitrogen (N₂)
- Working Pressure 15 bar
- Test Pressure: 35 bar
- Working Temperature +5 °C to +60 °C
- Finishing PO Red

FEATURES

- Eco Friendly
- Durable Discharge Nozzle
- Resistant to corrosion
- Effective suppression of Class A, B and F
- Tested for electrical conductivity up to 36 kV Alternating Voltage, from distance 1 meter

STANDARD

- Manufactured and Tested as per IS 15683:2018

ORDERING INFORMATION

Capacity 9L	Fire Rating 4A, 233B, 75F	Brand Minimax	Standard IS 15683:2018
