One step towards 
Sustainability. 

CHOOSE
GRENOZ®
Clean Agent

 **UL Recognized**

A **GUNNEBO®** BRAND

Fast, Reliable, Sustainable

Grenoz® Fire Protection Fluid is ideal for protecting sensitive electronic equipment and irreplaceable items from fire, it gives you peace of mind for the smart and safe choice of best extinguishing agent.

The choice that will help in sustaining business operations and meeting the sustainability goals as this extinguishing agent has global warming potential less than 1.

Grenoz® fluid provides performance without compromise and helps you protect everything in your care.

PERFORMANCE

Electrically non-conductive, volatile or gaseous extinguishing agent that leaves no residue upon evaporation

VALUABLE ASSETS

Evaporates quickly without leaving residue, helps in protecting critical items from damage

SAFE

The agent is environmentally safer than currently available clean agents in the market

ELECTRONICS

Non-conductive and safe for use around energized electronic equipment

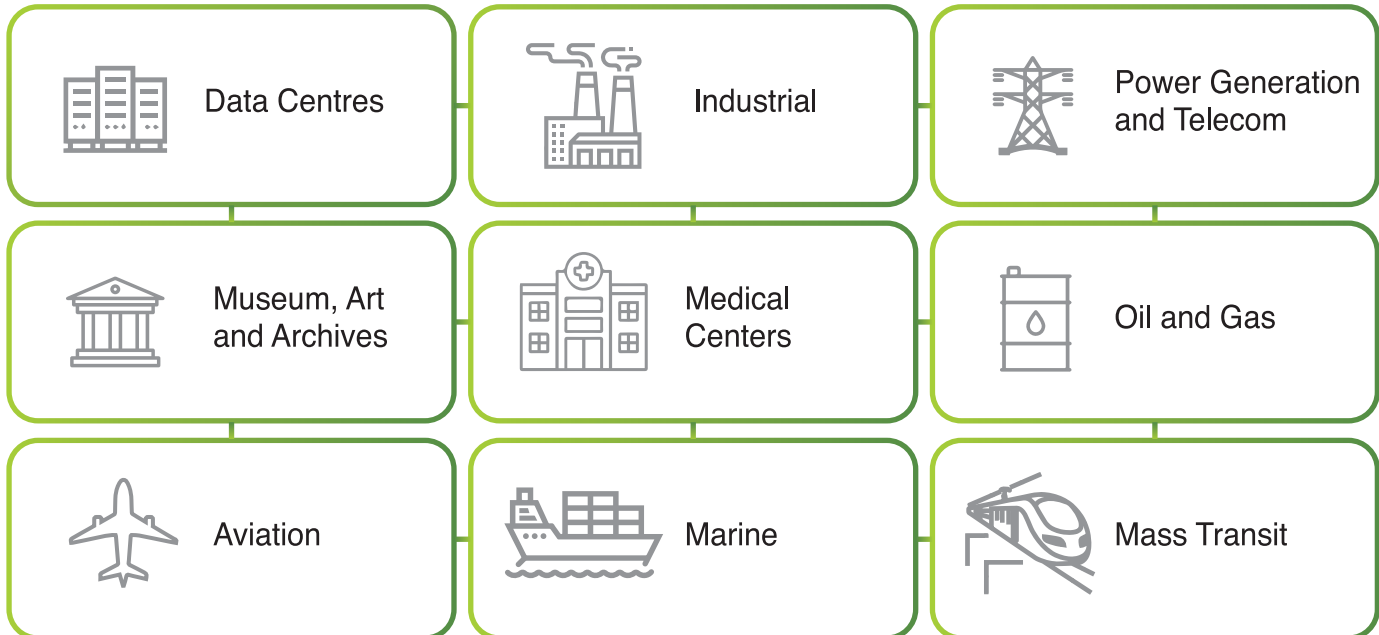

SUSTAINABILITY

Zero Ozone Depletion Potential, exceptionally low global warming potential, and low atmospheric lifetime help businesses meet their sustainability goals

Potential Environmental Impact of Various Clean Agents

	Performance			Sustainability	
	Leaves no residue	Electrically non-conductive	Minimal clean up	<1 Global warming potential	Short atmospheric lifetime
